**ACCOUNTANTS' COMPILATION REPORT**

Honorable Mayor and Board of Aldermen  
Town of Alligator  
Alligator, Mississippi

We have compiled the accompanying combined Statement of Cash Receipts and Disbursements, Governmental and Business-type Activities of the Town of Alligator for the year ended September 30, 2010, in accordance with Statements on Standards for Accounting and Review Services issued by the American Institute of Certified Public Accountants.

A compilation is limited to presenting in the form of financial statements information that is the representation of management. We have not audited or reviewed the accompanying Statement of Cash Receipts and Disbursements, Governmental and Business-type Activities and, accordingly, do not express an opinion or any other form of assurance on it.

The Town's policy is to prepare its financial statements on the basis of cash receipts and disbursements; consequently, certain revenue is recognized when received rather than when measurable and available, and certain expenditures are recognized when paid rather than when the obligation is incurred. Accordingly, the combined Statement of Cash Receipts and Disbursements, Governmental and Business-type Activities is not intended to present results of operations, in conformity with generally accepted accounting principles.

Management has elected to omit substantially all of the disclosures ordinarily included in financial statements. If the omitted disclosures were included, they might influence the user's conclusions about the Town's cash receipts and disbursements. Accordingly, the financial statement is not designed for those who are not informed about such matters.

The supplementary information contained in Schedules 1 through 3 is presented for purposes of additional analysis and has been compiled by us from information that is the representation of management of the Town of Alligator, without audit or review. Accordingly, we do not express an opinion or any other form of assurance on such supplementary information.

We are not independent with respect to the Town of Alligator.

**SELECTED DISCLOSURES TO FINANCIAL STATEMENTS**  
**SEPTEMBER 30, 2010**

Note 1 - Significant Accounting Policies

A. Reporting Entity

In evaluating and defining the Town's government it was found that the Town has no component units and therefore was considered as one unit.

B. Accounting

The Town uses funds to report its cash receipts and disbursements. Fund accounting is used to demonstrate legal compliance by segregating transactions related to specific government functions.

The Town uses two fund classifications of funds: general government and proprietary. Each fund has a separate balanced set of accounts.

The general government funds are used to account for all the Town's general activities and includes the accounting for general fixed assets and general long-term debt.

The proprietary funds are used to account for activities where net income or net loss is determined as if operating in a competitive environment.

C. Basis of Accounting

The financial statements are prepared using the cash receipts and disbursements method of accounting as prescribed by the Office of the State Auditor. Revenues are recognized when received rather than when earned and expenses are recognized when paid rather than when incurred.

D. Cash Deposits

The Town deposits all its funds in financial institutions selected by the Board of Aldermen that are insured by the Federal Deposit Insurance Corporation (FDIC).

E. The total column in this financial statement is presented for overview information purposes and is not meant to present fairly the cash receipts and disbursements on a consolidated basis.

Note 2 Report Classifications

Receipts and disbursements were classified according to requirements for small towns in the State of Mississippi as prescribed by the Office of the State Auditor.

Note 3 The Town uses the county tax rolls for the assessment of its ad valorem tax. Property is assessed in January of each year and the millage is set in September of each year. The Town clerk bills property owner for the ad valorem tax in December of each year. They are due on January 1 and become delinquent after February 1. The taxes levied for the year ending September 30, 2010 was 14 mills.

Auto taxes are collected and remitted to the Town by the Bolivar County tax collector.

Note 4 In April of 1985, the Town of Alligator received \$53,853 under provisions of the pollution abatement loan program. This amount was used to purchase a certificate of deposit for the Town's General Fund. These funds will be used as needed for the maintenance of the sewer system or for general municipal purposes. The Town had a non-interest bearing note payable to the State of Mississippi which was paid off during the year ended September 30, 2005.

Note 5 State law authorizes the Town to invest in interest bearing time certificates of deposit for periods of fourteen days to one year with depositories and in obligations of the U. S. Treasury, State of Mississippi, or any county, municipality or school district of this state. Further, the Town may invest in certain repurchase agreements.

Cash includes cash on hand, demand deposits, all certificates of deposit and cash equivalents, which are short-term highly liquid investments that are readily convertible to cash.

The collateral for public entities' deposits in financial institutions is now held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5, Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by Federal Depository Insurance Corporation.

The carrying amount of the Town's deposits with financial institutions was \$209,425 and the bank balance was \$209,425.
